

BIO-RAD

Bio-Rad is looking for its site in Cressier (Fribourg) for a

Clinical Affairs Specialist (100%)

Bio-Rad is an innovative company and thanks to its laboratory diagnostic systems world leader in the field of blood group serology.

Your tasks

- You coordinate tasks to implement clinical trials; plan, organize, instruct, troubleshoot and monitor clinical trials according to approved protocols to ensure that study objectives are achieved.
- You prepare/revise study designs, protocols, and protocol addendums.
- You review analytical and clinical data, recognize inconsistencies, and initiate the resolution of data problems.
- You ensure the accuracy and integrity of analytical and clinical data. You provide data analysis reports and line listings to support product performance measurements for presentation in EU and WW regulatory submissions.
- You ensure the accurate and consistent handling of analytical and clinical data, and ensure that data management tasks are conducted according to Good Clinical Data Management practices.
- You coordinate with Clinical Research Associates to develop clinical evidence processes, work instructions and associated forms.
- You participate in the design and performance of pre-clinical studies of new products to ensure that specifications are met.
- You write the product performance evaluation report as well as the «performance and use limit» section of the instructions for uses and sustain the clinical evidence file taking into account data collected post-market.

Your profile

- You hold a scientific university degree or an engineer diploma in biology, biochemistry, immunology or pharmacology.
- You have at least 2 years of professional experience in the field of diagnostics or biotechnology.
- Experience in immuno-hematology is an asset.
- You have a proactive nature and a strong customer-orientation.
- You are native French or German with good knowledge of the other language and you also have a very good command of spoken and written English.

Our company is involved in the supply of high-quality products and services intended for diagnostic laboratories. Independence, innovation and commitment are the fundamental values that permeate our company culture, as well as a strong orientation towards our customers and a multicultural environment.

If you feel attracted to this unique opportunity and you would like to take on new challenges, we would like to get to know you. Please forward your complete application dossier (application letter, CV, copies of work certificates and diplomas/degrees, etc.) to the address given in the advertisement.
