

# Quality Control Supervisor Test Support Team (100%)

Bio-Rad is an innovative company and thanks to its laboratory diagnostic systems world leader in the field of blood group serology.

## Your tasks

- You manage, monitor and plan the day-to-day business of the Test Support Team with 5 employees.
- You organize your team to ensure the correct execution of microbial tests, environmental monitoring, frozen erythrocytes management, characterization of erythrocytes and preparation of erythrocytes for testing.
- You are responsible for applying the quality system and its tools within your team.
- In case of deviations, you carry out root-cause analyses, implement appropriate measures and guarantee correct documentation in accordance with GMP.
- You work closely with all laboratory teams in Quality Control as well as various departments such as purchasing, planning, production, etc.
- You lead and / or support various projects in the field of continuous improvement.

## Your profile

- You have a bachelor in Microbiology, a biology laboratory technician EFZ or similar education.
- You have at least 6 years of practical experience in environmental monitoring, in-process/ release testing and method development in medical device or pharmaceutical industries.
- You have at least 4 years of management experience and know how to organize laboratory procedures.
- Ideally you have been able to gain practical experience in blood analysis, blood processing and/or immunohematology.
- You have worked extensively with a LIMS - SAP knowhow would be highly beneficial.
- You are familiar with the relevant regulations and standards in the medical field (regulatory requirements) as well as ISO standard 13485.
- You have good personal communication skills as well as negotiation and presentation skills.
- You have experience in continuous process improvement. Training in the area of Lean Six Sigma is an advantage.
- You are a native German or French speaker with good knowledge of the other language, as well as good English skills.

Our company is involved in the supply of high-quality products and services intended for diagnostic laboratories. Independence, innovation and commitment are the fundamental values that permeate our company culture, as well as a strong orientation towards our customers and a multicultural environment.

If you feel attracted to this unique opportunity and you would like to take on new challenges, we would like to get to know you. Please forward your complete application dossier (application letter, CV, copies of work certificates and diplomas/degrees, etc.) to the address given in the advertisement.
